

Due to the rise in petroleum prices as well as increasing environmental concerns, there is a need to develop biochemicals and bioproducts that offer realistic alternatives to their traditional counterparts; this book will address the lack of a centralized resource of information on lubricants and greases from renewable sources, and will be useful to a wide audience in industry and academia. It is based on 20 years of research and development at the UNI-NABL Center, and discusses the various types of vegetable oils available, comparing their characteristics, properties and benefits against those of typical petroleum oils as well as discussing common evaluation tests and giving examples and case studies of successful applications of biobased lubricants and greases. Whilst scientific and engineering research data is included, the book is written in an accessible manner and is illustrated throughout. Focuses on an industrial application of lubrication technology undergoing current explosive growth in the global market. Includes a detailed review of the material benefits of plant-based lubricants that include a better viscosity index and lubricity even at extreme temperatures, lower flammability due to higher flash points and lower pour points. Covers the basic chemistry of vegetable oils as well as their profiles for use in lubricants and greases and environmental benefits. Includes examples and case studies of where vegetable-based lubricants have been successfully employed in industry applications.

Infidelities 1 - Nice - 2012-05

"Our sexual encounter played in my mind like it happened yesterday. Do you know that my body still reacts from that, from you? Just the memory of it still does something to me. Thinking about it now, I know it wasn't "just sex" to me. Being with you was an experience. The way you kissed me, the way you touched me. I can still remember the way I felt that night. Every time I lay in my bed I think about the way I laid there while your hands explored my body. This may sound weird, but I can still feel you inside me. At first, I thought it was just good sex, but then, I realized it was just you." Excerpt from Infidelities I "A collection of dirty short stories that stimulate the mind and introduce the possibilities of new fantasies." Shaniqua Westbury "This is a wonderful book of everyday real life stories that many can relate to." Denishia Williams

Mr. Bundy - Jane Martin - 1999

This powerful drama examines the fears of parents driven to do "the right thing" when the safety of their daughter is in doubt. A mother and father who learn that the next door neighbor is a convicted child molester consider both vigilance and vigilantism before being forced into action by a pair of child advocacy crusaders. The shocking climax hits a raw nerve, leaving the audience to consider where the line between right and wrong lies. Mr. Bundy was a hit at the 1998 Humana Festival at Actors Theatre of Louisville. -- Publisher's website.

Hotel Gwales - Nigel Jenkins - 2006

Hotel Gwales is the eagerly anticipated new collection from award winning poet Nigel Jenkins. It is as diverse as it is rousing, featuring some eighty poems varying in length from a three-line Haiku to an extended meditation of nearly 400 lines. Welsh themes and references, ancient and modern, are interspersed with works of an undeniably international flavour to bring together this exceptional collection. From a poem commerating the execution of a man known as the Welsh 'Braveheart' to an elegy for a Welsh bus driver, Hotel Gwales truly has something for everyone. Hotel Gwales offers Nigel Jenkins's distinctive voice at its best in his first collection of poetry in almost four years. Nigel is well known both in Wales and internationally and is a frequent performer of his work. He has previously undertaken reading tours of countries including the USA and Switzerland. His trademark experimentation with form and ability to engage with his subject is at its finest.

2020 Third International Workshop on Mobile Terahertz Systems (IWMTS) - IEEE Staff - 2020-07

The Terahertz gap has been envisioned as the last domain in the radio spectrum for RF engineers to conquer With recent technological advances, the feeling in the past two decades that this frequency range can hardly be used seems gone with more and more promising results A number of well attended international conferences on terahertz technology support this point of view The IWMTS workshop sets itself apart from these well known conferences, by focusing on mobile technology and system concepts in the terahertz spectrum in the sense that the systems or devices can be hand held and easy to carry like mobile phones Of course, progress reports on traditional technological advances for THz components and theoretical studies on THz wave propagation as well as related topics are also welcome The workshop provides a forum for scientists and engineers in this emerging field to present and exchange the outcome of their research

Stand Firm - Paul Gould - 2018-11

In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. Stand Firm: Apologetics and the Brilliance of the Gospel argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad variety of evidences for its truth. But it is also brilliant given its beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect these considerations with the gospel so that we may stand firm in our faith.
